A Phenomenon.

What proved to be an attractive phenomenon, calling forth much comment and speculation as to the whyfore, appeared in the middle of the Sandy Lick creek Saturday evening, just above the bridge that connects Reynoldsville and West Reynoldsville. A heavy slab had floated down stream and lodged, broadside, against some obstacle. The slab struck the obstacle near its centre and the swiftly flowing water forced the slab into a seesaw motion. When one end of slab went down the other end was three or four feet out of the water. The slab ceased from Saturday afternoon until Monday night. The query was, what was slab lodged against and what held it in that position so long. People crossing bridge after dark Saturday evening thought some living thing was in the stream slashing the water to get out. It is said that one brave fellow who was passing that way Saturday night thought there was a man in the creek and began pulling his coat to plunge in to rescue the man.

On Monday evening six sons of Veterans from New Bethlehem Camp and fifteen sons of Veterans from Brookville camp visited Phil Kearney Camp S. of V., in Reynoldsville. After the regular meeting of the Camp in Bell's hall members of the Woman's Relief Corps served supper for the Sons. Six or seven old veterans were present to enjoy the evening with the Sons.

They went over on the trolley cars. After the lodge work was finished refreshments were served. A musical entertainment was also given for pleasure of the visitors.

Prof. and Mrs. C. V. Smith gave a reception to the members of the High School on last Saturday evening from eight to eleven. Mrs. Reno assisted in receiving. Each guest represented some character or play of Shakespeare and much fun was caused by the guesses. Tally cards decorated with cupids and hearts done in sepia were presented to each guest. Each person also received a pretty valentine. The decorations were pink and white carnations. Dainty refreshments were served.

Fred Blackman, of this place, ran a needle into his great toe two or three months ago. Surgeons sought it, carved up his toe, and decided that he was mistaken. One day this week the needle popped out through the skin on the upper side of the toe, when he drew it out.—Punxsutawney Spirit.

This is the time of year that Millirens demoralize competition by slashing prices.

Thirty little people were present. Supper was served at six o'clock. Phillips received a number of pretty valentines and other presents.

Some of the pupils from each room will take part in the programme, which will be patriotic in every respect. The parents and friends of the schools will be gladly welcomed at these exercises.

Car Every Two Hours.

In the rush to get the trolley cars running into Reynoldsville before the holidays the Jefferson Traction Company laid the track between Reynoldsville and Eleonora on the frozen ground, without ballast, and when the frost began letting loose the track was not in good condition. Work crew has been ballasting for several weeks, but the running of the cars every hour interfered considerably with the work crew and the Traction company has decided to run cars every two hours. The cars will leave here at 7.00, 9.00, 11.00 a. m., 1.00, 3.00, 5.00, 7.00 and 9.00 p. m.

Barn Burned Saturday Evening.

Last Saturday evening the barn owned by Alex Best, a farmer residing near Camp Run, formerly a citizen of West Reynoldsville, was totally destroyed by fire, resulting in quite a financial loss to Mr. Best, as ten tons of hay, two or three tons of straw, corn fodder, new sled, farm implements and one calf were burned with the barn. Mr. Best's son was in the loft throwing down hay and had a lantern hanging on a peg. The lantern was accidentally knocked off the peg, fell on the straw and instantly there was a blaze. The boy jumped on the fire and tried to tramp it out, but could not stay the flames and in five minutes the barn was all ablaze. All the live stock was saved but one calf. The reflection of the fire in the western sky attracted the attention of a number of Reynoldsville people.

An Opportunity Gone.

Two weeks ago mention was made in THE STAR that there was a gentleman in town who wanted to start a match factory in Reynoldsville, but the gentleman has evidently given up the project in disgust, so far as Reynoldsville is concerned. Two different evenings were set for a meeting of a number of citizens with the man who had a proposition to present, but the citizens failed to put in an appearance either evening. The gentleman had papers to show that he was backed up by men who have capital. It is doubtful whether the fellow will make another appointment to meet the citizens of Reynoldsville for the purpose of locating a match factory here. Our town cannot afford to let propositions for new industries pass by without giving the propositions a thorough investigation at least.

Do You Want More Factories?

Kane has a Business Men's Association to promote the locating of industrial plants in that town and as a result Kane has good prospects of landing two or three large industries. The members of the association pay \$4.00 a year and dues and the people of the town are subscribing \$1.00 each to aid in booming Kane. If the work is kept up Kane will double its population in a few years. Reynoldsville, nor any other town, will not be troubled much with new industries if there is no effort made to get them. As has been repeatedly stated in the columns of THE STAR, Reynoldsville has advantages to offer large industries that are not surpassed by any other town. Let us make an effort to increase the industries of our town. There was a party here last week who wanted to locate a match factory at Reynoldsville and two evenings were set to hold a meeting of citizens that the proposition of the parties seeking the location might be unfolded, but the party failed to get a representation of the citizens. An effort is now being made to locate another glass plant here, but what the result will be remains to be seen. We cannot afford to be indifferent about getting new industries in our midst.

Jailed for Stealing Watch.

An agent who was going from house to house selling stereopticon views, called at the rooms of Captain Frey and Liet. Sweitzer and while there he stole a small silver watch from one of the ladies. A person who is contemptible enough to steal generally possesses some cunningness, but this fellow lacked cunningness. He came down town and tried to sell the watch. At the hotel where he was stopping he would pull the watch out of his pocket if any person would inquire the time of day. The fellow gave his name as George W. Coventry of Philadelphia. Said his father is in Ridgway selling views. Coventry stole the watch on Tuesday of last week and the following day he had had a hearing before Squire E. Neff, and falling to furnish \$500.00 bail was taken to the county jail at Brookville to await trial at April term of court.

Cheap Tickets for Employees.

The Enterprise Silk Company has bought a large number of trolley car tickets from the Jefferson Traction Company, which the silk company will sell to employees, who have to ride on trolley cars to and from work, at a very low rate—less than cost. The rate will be the same, no matter whether they come from Wishaw, Eleonora, Anita or Punxsutawney. Of course the employees can only buy two tickets at one time, one to go home from work in evening and one to return next morning. The silk company will not furnish tickets to employees at the low rate for them to ride on cars when it suits them—only to go to and from work.

If the trolley cars increase the employees at silk mill sufficiently to justify it the Enterprise Silk Company will probably increase the capacity of the silk mill at this place.

NEW GLASS PLANT PROJECT.

Meeting of Citizens and Glassworkers Held Last Week.

An announcement appeared in THE STAR last week that a public meeting would be held in Centennial hall on Wednesday evening, February 11th, for the purpose of considering a proposition to locate another glass plant at Reynoldsville. The meeting was held but the representation of citizens was not as large as it should have been. John H. Wagner was chosen chairman and Henry B. Clayton secretary of the meeting. After discussing the matter a committee was appointed to see the board of directors of the Land Improvement Company and find out what prospect there would be of securing a site for the proposed new glass plant. The committee was also to select the site that would be most desirable for the new plant. This committee was composed of the following citizens: A. M. Applegate, J. M. Humphrey, H. Ward Eason, Charles M. Dinger, James M. Moore, C. C. Gibson, Fred J. Butler, John H. Wagner.

Another meeting will be held soon to hear the committee's report and to take steps towards raising the stock necessary for the erection of the plant, which is to cost about \$75,000. A number of glassworkers expect to take stock in the plant and the citizens of Reynoldsville will be expected to take some of the stock. Just how much stock the glassworkers will take has not been stated yet, but no doubt will be at the next meeting.

Hon. Walter M. Chandler.

JOHNSTOWN, N. Y., January 1, 1902. "The Trial of Jesus" was one of the greatest lectures ever heard in our city and Mr. Chandler one of the greatest orators. He held his auditors enthralled from the first to the last word uttered. Originality of thought, beauty of diction, and force of logic were the leading characteristics.

THOMAS R. JORDAN.

General Secretary Y. M. C. A. Mr. Chandler is a New York lawyer and a brilliant one, and is one of the most able speakers on the American platform. His great command of English and his superb flights of oratory stamp him at once as a masterly and dominant influence when facing an audience. He had not been speaking for more than a few minutes when he had carried his hearers with him. At the close of his speech he was given an ovation and applauded to the echo.—Waterbury (Conn.) Daily Republican, June 21, 1901.

Mr. Chandler will be in Reynoldsville Friday, March 6, and will deliver his famous lecture on "The Trial of Jesus from a Lawyer's Standpoint." He comes as the fourth attraction of the public school lecture course.

First Stepping Stones.

The parents who find their son with a pocket full of marbles and his clothing besmudged with mud will know positively that their offspring has been playing marbles for "keeps," which is nothing more nor less than gambling. It is the first step towards a vice which would cause the same parents worry and sorrow if their son would become addicted to it in young manhood. Playing marbles for "keeps" is a common practice among boys, and has been for many years, but parents should not encourage the practice without advising them not to play for "keeps" and showing them the evil there is in the game. A number of boys were playing marbles on Main street Saturday forenoon and a quarrel was started because one of the boys was cheating and the lads assembled on sidewalk, talked fight and became so boisterous that Constable Warnick had to disperse the crowd and threaten to arrest some of the little fellows. Cheating, fighting and swearing usually follow in the train of gambling.
